EXAMINER'S COMMENT AND STATEMENT OF REASONS FOR ALLOWANCE

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on February 25, 2005 has been entered.

Information Disclosure Statement

2. Where the IDS citations are submitted but not described, the examiner is only responsible for cursorily reviewing the references. The initials of the examiner on the PTO-1449 indicate only that degree of review unless the reference is either applied against the claims, or discussed by the examiner as pertinent art of interest, in a subsequent office action. See Guidelines for Reexamination of Cases in View of *In re Portola Packaging, Inc.*, 110 F.3d 786, 42 USPQ2d 1295 (Fed. Cir. 1997), 64 FR at 15347, 1223 Off. Gaz. Pat. Office at 125 (response to comment 6). Consideration by the examiner of the information submitted in an IDS means that the examiner will consider the documents in the same manner as other documents in Office search files are considered by the examiner while conducting a search of the prior art in a proper field of search. The initials of the examiner placed adjacent to the citations on the PTO-1449 or PTO/SB/08A and 08B or its equivalent mean that the information has been considered by the examiner to the extent noted above. MPEP § 609 (Eighth Edition, August 2001).

The examiner notes that due to the unusually large number of references cited on the IDS submitted on February 25, 2005, and the absence of any description of the relevance of the

Art Unit: 2884

references, it should be assumed that only the most cursory review of the cited documents consistent with these guidelines has been performed. If applicant is aware of any information that might be of particular relevance, it should be pointed out in order to insure a higher degree consideration.

Comment on Submissions

3. The examiner notes that the submissions of 25 February 2005 include a reference (Stationary OREM System – Small Hardened Environmental Pollution Sensor (SHEPS) for On-Road Emissions Measurements), which is not listed on the provided IDS. The examiner further notes that while the document includes a date of June 1995 (suggesting availability as prior art), the pages of the document are stamped “SBRC Proprietary/Competition Sensitive”, which begs the question as to whether or not the reference qualifies as a publication and/or whether it was actually known by others.

The examiner also notes that some aspects of the SHEPS device appear to anticipate elements related to novel aspects of the claimed invention (i.e., a automated calibration and a single enclosure for all the main elements), but that the executive summary characterizes the document as a proposal to *develop and demonstrate* the SHEPS instrument (emphasis added), which begs the question of “if” and “when” the SHEPS system was developed, or whether it was merely an idea that was not reduced to practice.

In view of the above, and considering its omission from the IDS (i.e., failing to comply with 37 CFR 1.98(a)(1), which requires at least a list of all patents, publications, applications, or other information submitted for consideration by the Office), the examiner has not considered the reference against the claims of the present application, but from at least a cursory review, it does

Art Unit: 2884

appear that the reference may be extremely relevant if such reference is later submitted as a qualifying prior art reference.

Drawings

4. The drawings were received on 25 February 2005. These drawings are acceptable

Allowable Subject Matter

5. Claims 1-21 are allowed.
6. The following is an examiner's statement of reasons for allowance:

The claims are considered allowable for reasons of record as present in parent application 08/739,487.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert J. Gagliardi whose telephone number is (571) 272-2436. The examiner can normally be reached on Monday thru Friday from 10 AM to 6 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David P. Porta can be reached on (571) 272-2444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
